# NEWS – Logging changes at your user location – charging station

We are now logging the work with user's own locations - charging stations. You can easily view the locations (charging stations) that have been deleted.

In the Logs statistics (Statistics » Other » Logs), two new actions have been added:

- **Change your home charging location**

here are any changes that are made in User Locations on the Dispatching tab.

- **Change charging station**

here are the changes to the charging stations that are stored with the driver (Section Location to pay for vehicle re-charging by the driver).

## NEWS – New version of WD Fleet application 1.9.0

In the new version 1.9.0 we have fixed minor bugs in the application (file display, messaging, etc.).

The main change, however, is the update of the Sygic navigation libraries to the newest version 24.5.3.

New version has improved route calculation algorithm, solves the error of route calculation to places that are not yet drawn in the maps, furthermore the occurrence of school zones and mainly improves the operation traffic information.

END

**We hope that you have found useful information in the articles in this issue of the magazine that will make working with your fleet even easier.**

**Thank you for your trust.**
