NEWS – Conversion to company currency in automatic import costs from EW

In case you have enabled the conversion of the fuel and lubricants price to the company's currency (i.e. unchecked the checkbox "Disable conversion of fuel and lubricants price to company's currency") and at the same time enabled the automatic upload of Eurowag transactions, the costs will now be converted to the company's currency, but only to the following currencies: CZK, EUR and PLN.

If you have set a currency other than the above (e.g. HUF), have enabled conversion and then imported the cargo in e.g. EUR, then it will be retained the currency of the transaction (in this case EURO).

Other settings:

Max. number of displayed nearby vehicles:

- Distinction of trip in town×out of town
- User locations - company
- Your position - pumping station
- Private – your firm
- Postcode to the logbook (CZ, 779 00 Olomouc, Ladova)
- Own places - speed limit

Allowed variance in odometer correction: %

- POI management - parking
- POI management - charging station
- Log book according to vehicle template
- Show private trips
- Show driver 's private routes
- Display location of vehicle when alarm sounds and during private trips
- Do not show the time of private trips
- User may see Servicing - Complaints
- Agriculturally-focused firm
- Medical company
- Switch fuel price to recalculation into company currency
- Record Eurowag transaction automatically

Currency conversion is performed only in EUR, PLN and CZK

Stopping the semitrailer each

Send alerts on the need to close the unit, day of the month:

- Send a message to the driver when the shipment is shipped
- Repeated notification for tasks

NEWS – WD Fleet – Compare other vehicles configuration

Added the ability to overwrite WD Fleet settings from one vehicle to others.

On the Terminal tab in the vehicle setup, a button "Comparison of other vehicle configurations" has been added.

How the "Compare other vehicles configuration" button works:

- **The button can only be clicked if the user has not made a setting change.**

In the opposite case, the notification " First you must configure the current vehicle" will be displayed, i.e. click on the "Configure" button after the change.

WD Fleet offline

Set configuration on selected vehicles

NEWS – WD Fleet – Compare other vehicles configuration

- After clicking the button, it compares with all active vehicles that are set to "Communicate with mobile applications"

You will see a list of vehicles with check marks (vehicles that already have the configuration set) and with crosses (vehicles that do not have the configuration set). Such vehicles are possible to select and then set the configuration for them by clicking on the "Set configuration for selected vehicles" button.

Items "Driver 1", "Driver 2" and "Setup PIN" are not overwritten.

The screenshot displays the 'General' configuration page for vehicle '6AX 1980'. The interface includes a top navigation bar with tabs for 'General', 'Invoicing', 'Working hours', 'Vehicle logbook creation', 'Peripheral devices', 'Alarms', 'Temperatures', 'Optimisation', 'Trip mode', and 'Terminal'. The main area is divided into several sections:

- License plate:** RM (Registration Number) 6AX 1980, Brief description: Skoda silver, Default driver: Procházka Martin (333), Default driver is valid until: Driver not set, Default driver 2: --- BRNO, Group: ---, Previous purpose: ..., communication number: mobile, **Communicate with: mobile applications** (highlighted in red), E-mail communication: nafa, Ownership type: company, Type: passenger, Standpoint: ..., Serial number: TMBXG7H66J0303184, Brand: Skoda Auto AS 2, Model car: Octavia, Appearance template: ...
- Home-work-home:** 0, normal monthly run in km: 0, Tank size: 50 l, CNG tank size: 0 kg, Ad blue tank size: 0, Fuel tanking tolerance: 3, Suspected fuel drop: 10, Maximum loss detection rate: standard, Purchase price excluding VAT: 437322.70, Purchase price VAT: 21 %, Purchase price with VAT: 533573.00, Applied VAT: 0, Amortize private km: 2, Division: DIVO1, Centre: STR0101, personal number: CARS1, Object number: ..., RB No.: ..., Registration date: 1.6.2018, Date of deletion: Deleted.
- Responsible user:** hidden name, Supervising user: valovic, Accounting office: ..., Language used for names of towns: Czech.
- Checkboxes:** Show zero mileage trips (checked), Car rental (checked), Parking place sharing (checked), Display hours driven (checked).
- Average consumption by registration book combined:** 4.10 city, 4.60 out of town, 3.80 Standard consumption per 1 tonne of load, 0.00 Average CNG consumed as shown in registration.
- Insurance company:** no records, New record (checkbox).

Buttons for 'OK' and 'Cancel' are located at the bottom right of the form.

NEWS – Forwarding - adding a whisperer for better address search

In Forwarding, when entering a stop, the new field (Google's whisperer) has been added to search for a given address.

Thanks to the whisperer, addresses are filled in more accurately.

The screenshot shows a software interface for managing stops. The 'Address' field is highlighted with a red box, showing a dropdown menu with suggestions for 'Okružní' addresses in Brno-sever, České Budějovice, Praha 12, Olomouc, and Nehvizdy. The interface includes tabs for Load, Stops, Map, Alarms, Driving, Actions taken, Invoicing, and Files. A table at the bottom shows a list of stops with columns for Sequence, Type, Country, Company, Address, From, To, and Actual time.

Sequence	Type	Country	Company	Address	From	To	Actual time
0.	Unloading	CZ	ACTIVA spol. s r.o.	Praha 9 Letňany, Veselská 686	12.01 00:00	12.01 00:00	
1.	Unloading	DE	ABIS GmbH	Schwanstetten, Falkenstrasse 1	13.01 00:00	13.01 00:00	
2.	Loading	CZ	A.V.SPED s.r.o.	1 Pelhřimov, Okružní 1891	11.01 00:00	11.01 00:00	

NEWS – Logbook confirmation - Return to driver for revision

Improvements have been made to the behavior of the "Return to driver for revision" functionality when confirming the logbook.

When returning the consent closure logbook added check on data closures:

1. the date of the last date closure must not be greater than the deadline date until the consent to close the logbook
2. in the deadline of the consent to close the logbook, there must not be any other data closures - message about contacting the admin (To open a data closure, please contact the admin!)

NEWS – Logbook confirmation - Return to driver for revision

In addition, logging has been added for:

- creating a request to confirm a logbook (logging also added in the API function `_setBookConfirmation`)
- returning a request to confirm a logbook for revision
- deleting a request to confirm a logbook
- approving a request to confirm a logbook
