NEWS – Drivers'safety breaks

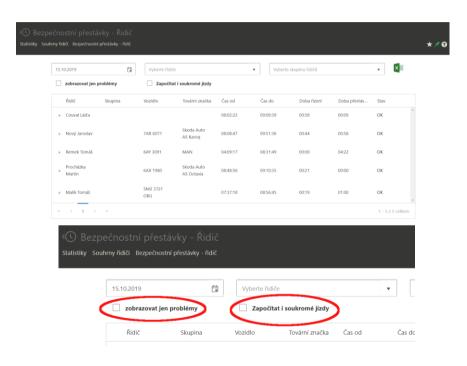

Statistic: Driver summary /
Safety breaks - Diver statistics

This statistic allows you to mo-

nitor compliance with mandatory breaks for drivers across the vehicles they were driving on certain day.

You can also use the "Show only problems" option, where the list will be abbreaviated only for records that do not meet the conditions.

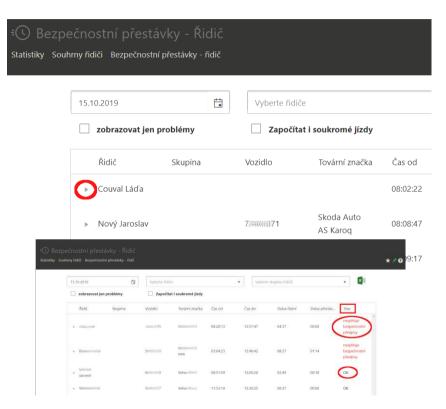

With the option "Include private trips" you also include the driver's private trips.

NEWS – Drivers'safety breaks

By clicking the driver (using the triangle in front of the driver's name) you can see the detail of the journey.

Problematic states are listed in the "STATUS" column in red: It does not comply with safety regulations.

NEWS - API functions

We have added a new input parameter "Real state of fuel at the end of the journey" to _setOdometerCorrection API function. Now, you have an option to enter the fuel tank volume at the end of the journey via the API
